On the first Monday (4th instant) the Conservative Nominating Convention met at Spotsy vania Courthouse to select a candidate for the next General Assembly of Virginia. A tremendous effort was made by certain parties who were sure of their own defeat to prevent the Convention from meeting. The attempt was futile, and resulted Found it impossible to go farther than a only in exhibiting those who participated in

We are tired of Radical representatives, and will give them a hard fight, and when our report comes out Radicalism will have met its Sedan forever there to remain. So you can look out for a good report on the night of the 21 of November.

One of the rules for the management of the schools provided that the morning service should always begin with appropriate singing, reading of the Scriptures, and the Lord's Prayer. This was objectionable to the Jews, who are numerous and influential in Chicago, to the Roman Catholics, who do not recognize the Protestant version of the Bible, and to the non-sectarians, who do not want religion mixed with secular education; and all of these classes maintained that the reading of the Scriptures was contrary to the spirit of the Constitution. STATE TAXES ON NATIONAL BANKS .- The Controller of the Currency last September is ued a circular requesting returns from all national banks of the amount of taxes paid by them during the years 1874 and 1875. These returns are not yet completed for any State, and such banks that have not responded are urgently requested to do so. A compilation has, however, been made from such returns as have been received from the State of Ohio, which composes three fourths of the banks of the State, from which it appears that the ratio of State taxation upon capital in the city of Circinnati is 2.52 per cent., and in Cleveland 2.19, and from all the banks in the State, including those cities, 2 82. The amount of United States taxes for the same period was 1.62 per cent., making a total of State and national taxes of 3.94 per cent. The Troubles in Mississippi.

Мемриів. October 6.—An impression prevails here that there has been no blood shed at Friat's Point. No steps have been taken to forward men or arms from here. No organized body of men will go from Helena, Alcorn had the militia under arms, with which be had driven off two hundred negroes under Brown.

The steamer Maude, arrived from Helens. reports no fighting. The situation is unchanged. MEMPHIA, October 6.-The Associated

Press has received the following from Friar's Point, Miss., via Helena: "The sheriff of Conhoma county caused

Chaimers in command. The sheriff has fled the county. Send us aid immediately." A special to the Appeal from Friat's Point to-day says the citizens there are all under arms in anticipation of an overwhelming attack from the negroes unless three buddred men can come bere to deter them from further violence. Business is su-pended, and the citizens are in a dreadful state of alarm. The negroes threaten to burn the town and murder the white women and children. As yet there is no reliable statement of the

Fighting in the vicinity of Oak Ridge road is reported. Sheriff Brown is at Jonestown organizing his party for the supposed purpose of another attack on Friar's Point. The negroes are said to be rendez-

vousing in large numbers. Both Democrats and Republicans are united to resist the incendiary effort of Sheriff Brown, who has been organizing the negroes upon the idea that the whites intended to kill them, when in fact the whites had not uttered any such intention nor held meetings for such a purpose. The whites dread a collision, and will only act in defence of their lives and property.

There is very little excitement in Memphis in regard to the troubles at Friar's Point, and as yet no men have gone there.
